Cedral Weatherboard Aluminium Trims

A new range of Cedral Weatherboard aluminium trims have been produced to match and complement the existing Cedral Weatherboard colours and to provide easy installation along with greater design flexibility.

Features

Available in a range of powder coated colours.

Easy to fit and durable.

Range of trims available and no surface visible fixing.

Benefits

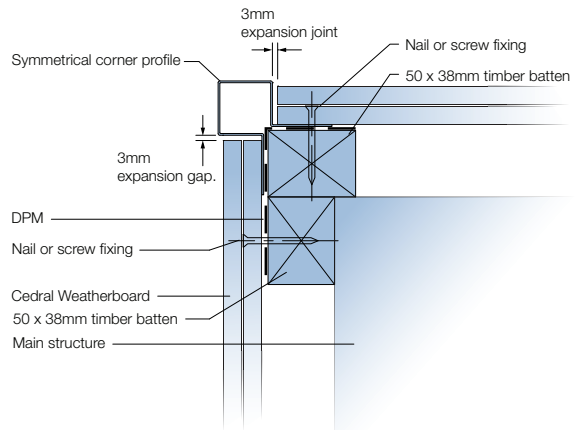

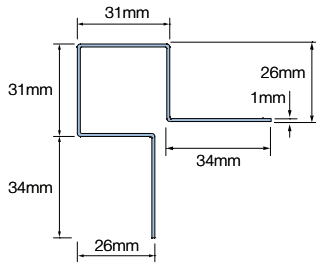

To match the Cedral Weatherboard and Operal range and to complement the woodstain colours.

Reduced installation time and easy to store.

To offer more design options and enhance aesthetic appeal.

External corner (symmetric)

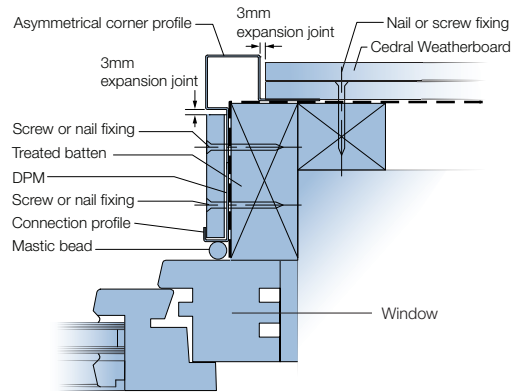

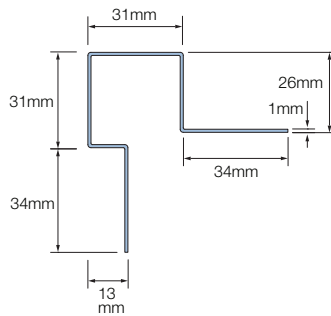

This symmetric external corner is used to provide protection on external corners and an aesthetically pleasing finish.

External corner junction piece also available – see back page for details.

External corner/window reveal (asymmetric)

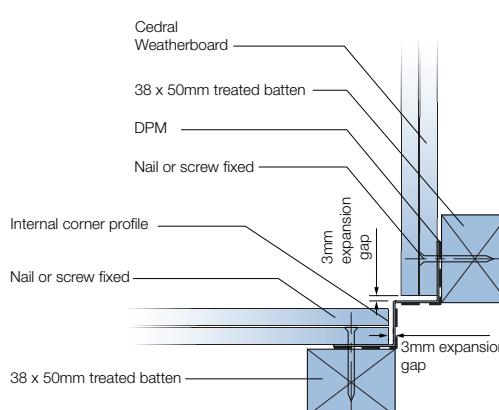

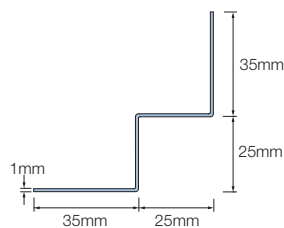

Can be used as an external corner or where detailing on a window reveal.

External corner junction piece also available – see back page for details.

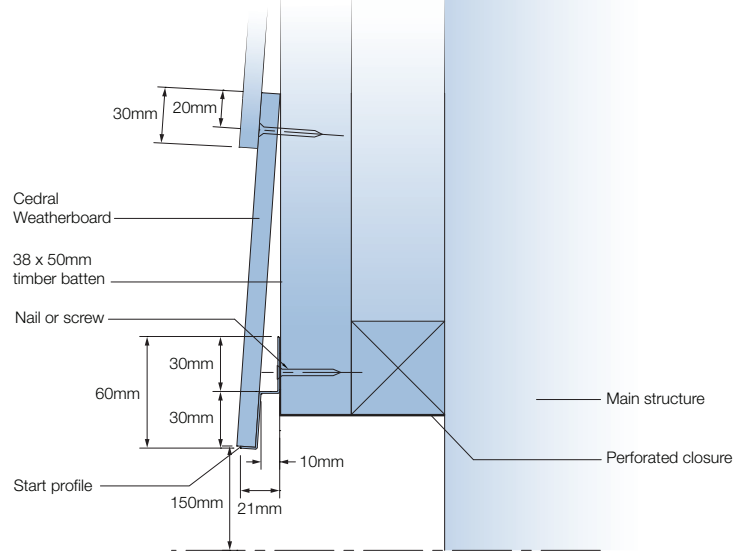

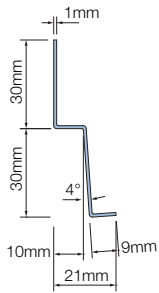

Internal corner

To finish the corner where Cedral Weatherboard meets on an internal corner forming a seal between the trim and the corner.

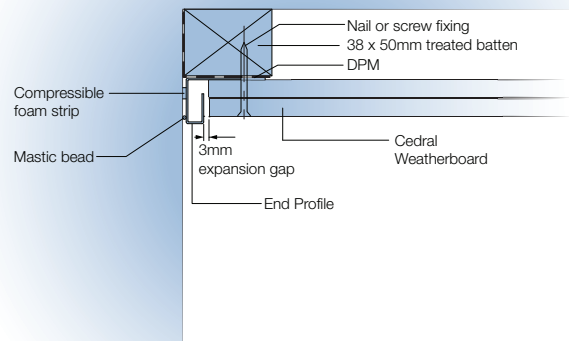

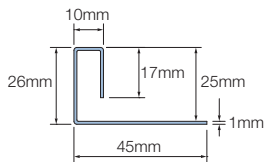

Start profile

Used to start a cladding run with a lip to cover the first batten.

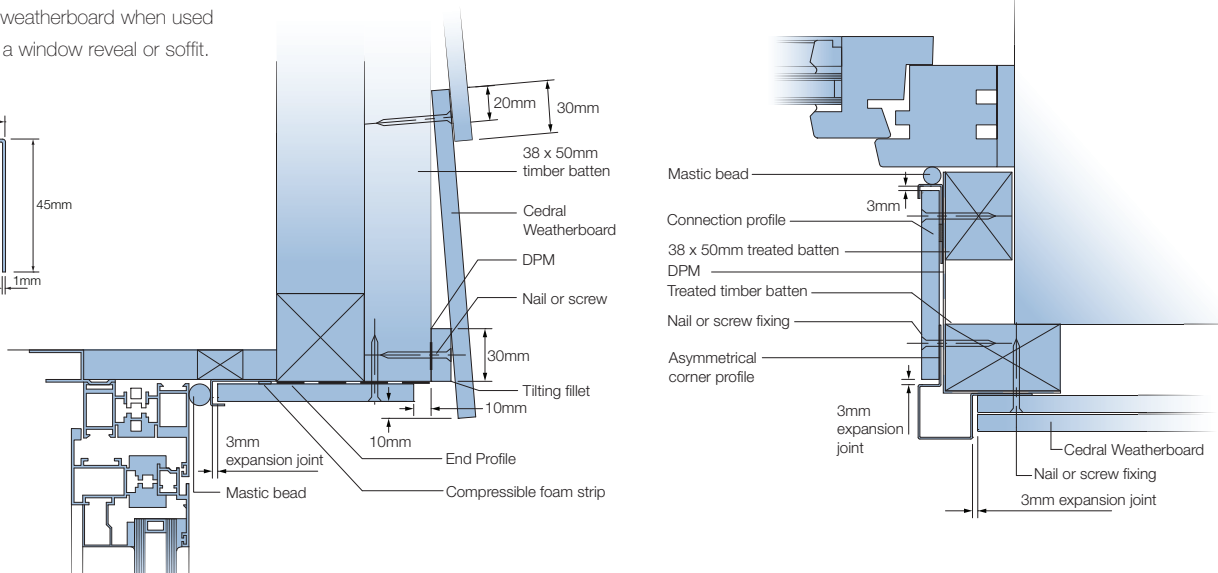

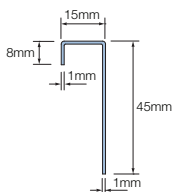

End profile

Hides any sharp corners and protects the Cedral Weatherboard edges from wear and tear giving an aesthetically pleasing finish.

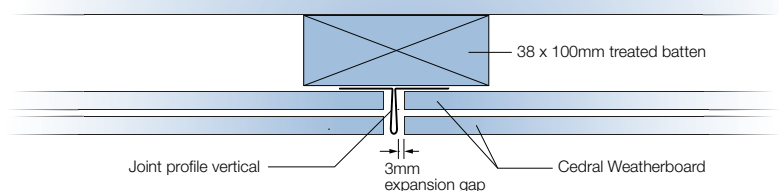

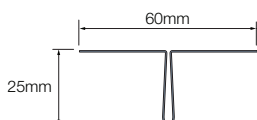

Connection profile

An end trim to finish weatherboard when used as a single piece on a window reveal or soffit.

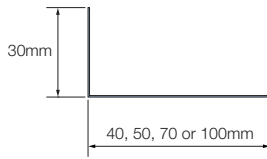

Joint profile vertical

Used as a jointing detail.

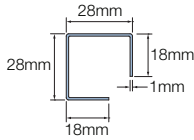

Accessories

Accessory	Description	Colour	Size (mm)	Code
